

HCL EdgeLITY

Conceive, design, deploy and manage an Edge computing solution seamlessly

HCL EdgeLITY is an end-to-end offering that simplifies an enterprise's transition to Edge-based architectures. It enables organizations to create a customized Edge computing solution that is aligned to their existing environment, capabilities and desired business outcomes.

Key features

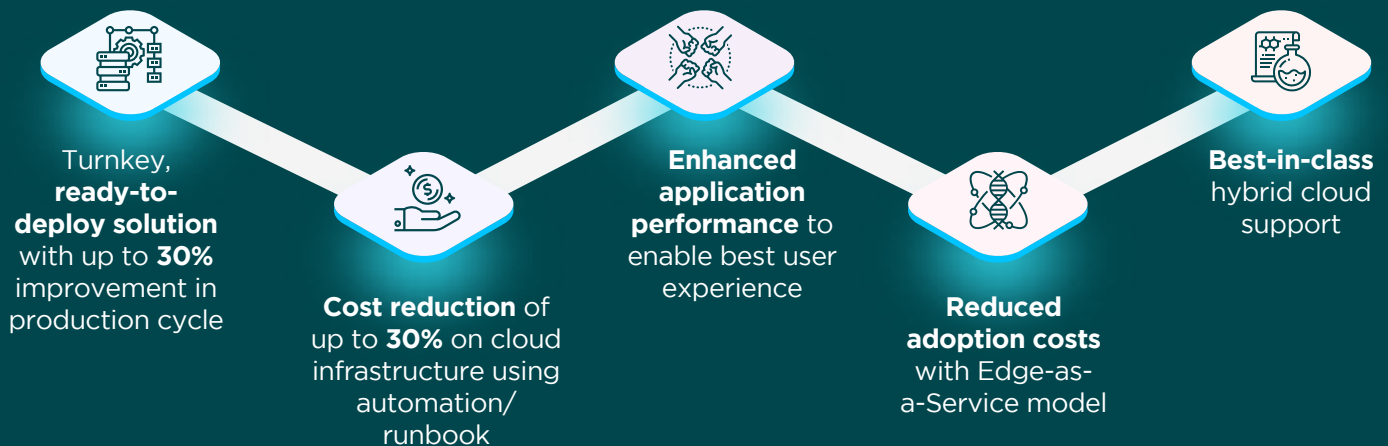

Framework

HCL EdgeLITY framework is designed to support enterprises that need a smart, flexible and agile solution that enables a seamless adoption to the Edge in a phased approach, thus preventing the disruption of business-critical services. EdgeLITY offers a validated stack-based approach that enables enterprises to absorb existing cloud infrastructure investments, ensuring flexibility as per varying organizational needs.

An Edge-based processing approach

Why HCL

- Microsoft Preferred Partner for Azure Stack Hub and Edge Deployment & Migration
- Rated as one of the top global ERS players for Edge and other services
- Leader in Everest Group System Integrator (SI) Capabilities for AWS, Azure and GCP, 2021
- Deploying and managing core IoT workloads expertise
- Dedicated IoT - COLLAB labs to conceive, design and validate customized solutions
- Ready-to-build vertical specific solutions
- Integrate & consume the Edge-ready solutions of IoT WoRKS™ from Cloud Marketplace

HCL

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy, through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three lines of business - IT and Business Services (ITBS), Engineering and R&D Services (ERS), and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations, and next generation digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering while under P&P. HCL provides modernized software products to global clients for their technology and industry specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities, and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences, and Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability, and education initiatives. As of June 30, 2021, HCL Enterprise generates annual revenues of US\$ 10.54 billion and has 176,000 employees operating out of 50 countries. For more information, visit www.hcltech.com
