HCL Informix on Cloud

Azure Edition

PRODUCTS & PLATFORMS
by HCL Technologies

OVERVIEW

HCL Informix is an enterprise-class database offered on the Azure Cloud. It features a cloud-delivered, ready to run, fast, resilient and scalable database management system that manages traditional relational, object-relational, and dimensional datatypes.

HCL Informix on Azure offers the complete features of Informix on-premise deployments without the complexity and risk of managing your own infrastructure. Azure provides the infrastructure to run Informix in More regions than any other cloud provider, with the only consistent hybrid cloud, and unparalleled developer productivity.

KEY CAPABILITIES

Informix is feature-rich and is the underpinning of IoT, embedded applications, and cloud solutions. Key capabilities include:

Data Integration
Combine and use TimeSeries, Spatial, NoSQL, and SQL data together in the same database, in the same queries.

Data Access
Application developers have fast access to this data.

Data Volume
Ingest and store streaming terabytes of sensor data and other information necessary for IoT solutions; allowing for edge analytics and cloud capacity.

Data Security
Native encryption with all configurations, your data is secure at rest and in motion.

HCL Informix Workload Accelerator (IWA)
Delivers incredible query acceleration through a columnar, compressed, in-memory technology.

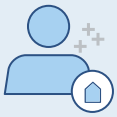
ADVANTAGES

HCL Informix is widely used and well known for its reliability, performance, and ease of use. On Azure, Informix gains further advantages, including:

Productivity
Reduce time to market, by delivering features faster with over 100 end-to-end services.

Hybrid
Develop and deploy where you want, with the only consistent hybrid cloud on the market. Extend Azure on-premises with Azure Stack.

Intelligence
Create intelligent apps using powerful data and artificial intelligence services.



Trusted
Startups, governments, and 90 percent of Fortune 500 businesses run on the Microsoft Cloud today.

CONFIGURATIONS

HCL Informix Server

Pricing increases as customer moves up through higher end EC2 models

CentOS (add others as market demands)

Informix Client-SDK and JDBC are free and can be requested at products-info@hcl.com.
